

**2009 FIRST QUARTER  
INTERIM REPORT TO SHAREHOLDERS  
FOR THE THREE MONTHS ENDED MARCH 31, 2009**

**To The Shareholders:**

BAM Investments Corp. recorded net income of \$9.1 million for the three months ended March 31, 2009 compared to net income of \$7.1 million in the same period last year. The increase in net income reflects the impact of a higher U.S. dollar on dividends received by the company, which are declared in U.S. dollars, and a \$1.2 million gain recorded on the repurchase of preferred share obligations. After providing for interest and dividends on financing obligations, net income per common share was \$0.11 for the three month period, compared with net income per common share of \$0.09 for the comparable period in 2008.

During the quarter the company redeemed all of the exchangeable debentures by delivering 5.3 million Class A Limited Voting Shares ("Class A Shares") of Brookfield Asset Management Inc. ("Brookfield") and 0.2 million Partnership Units of Brookfield Infrastructure Partners LP ("Brookfield Infrastructure"). This reduced dividend income and interest expense.

**Outlook and Net Asset Value**

BAM Investments owns a direct interest in 55.5 million Brookfield Class A Shares with a market value at March 31, 2009 of \$963.4 million based on quoted market values and is financed with \$364.0 million of retractable preferred shares and a common equity base with a book value of \$606.4 million as at March 31, 2009.

The company's objective is to provide its common shareholders with capital appreciation as opposed to income returns. Operating cash flows are dedicated principally to paying interest and dividends on its preferred share financing obligations.

The calculated net asset value of the company's common shares as at March 31, 2009, based on the stock market price of Brookfield's Class A Shares of \$17.37, was \$7.64 per common share of BAM Investments. The company holds approximately 7 Brookfield Class A Shares for every 10 common shares of BAM Investments.

# Management's Discussion and Analysis

## OVERVIEW

BAM Investments Corp., (the "company") is a leveraged investment company whose principal investment is a direct and indirect ownership interest in 55.5 million Class A Limited Voting Shares ("Class A Shares") of Brookfield Asset Management Inc. ("Brookfield"). The company also has an ownership interest in 2.2 million Limited Partnership Units ("Partnership Units") of Brookfield Infrastructure Partners ("Brookfield Infrastructure").

The company's objective is to provide its common shareholders with capital appreciation as opposed to income returns. Investment income, which consists principally of dividends from its investment in Brookfield Class A Shares and Brookfield Infrastructure Partnership Units is dedicated to paying interest and dividends on its financing obligations.

The company's investment in Brookfield is owned directly and through BAM Split Corp. ("BAM Split"), a public subsidiary in which BAM Investments owns 100% of the common equity. BAM Split has issued publicly listed retractable preferred shares of which \$364.0 million were outstanding at March 31, 2009.

The company redeemed its long-term exchangeable debentures on January 30, 2009 by the delivery of the pledged 5.3 million Brookfield Class A Shares and 0.2 million Brookfield Infrastructure Partnership Units to the holders of the exchangeable debentures to satisfy the redemption price.

Additional information on the company's and BAM Split, including the company's annual information form, is available on SEDAR's web site at [www.sedar.com](http://www.sedar.com).

## RESULTS OF OPERATIONS

### Overview

Net income was \$9.1 million for the three months ended March 31, 2009, representing an increase of \$1.9 million recorded in the same period in 2008. The increase in net income is the result of an increase in investment income over the prior year.

### Investment Income

<i>For the three months ended March 31, (\$thousands)</i>	2009	2008
Dividend Income:		
Brookfield	\$ 8,944	\$ 7,292
Brookfield Infrastructure	741	202
Gain on repurchase of preferred share obligations	1,180	—
Gain on sale of investments	434	—
Interest and other	169	298
	<b>\$ 11,468</b>	<b>\$ 7,792</b>

The company received dividend income of \$8.9 million (2008 - \$7.3 million) from its investment in Brookfield, and \$0.7 million (2008 - \$0.2) from its investment in Brookfield Infrastructure. Brookfield and Brookfield Infrastructure declare dividends in U.S. dollars, and as a result the Canadian dollar equivalent recorded by the company is impacted by changes in the foreign exchange rate between the U.S. dollar and Canadian dollar. The stronger U.S. dollar contributed an increase of \$2.3 million of dividend income received from Brookfield compared to the 2008 period. This was partially offset by a lower number of Brookfield Class A Shares held during the period following the redemption of the exchangeable debentures. Brookfield Infrastructure dividend income reflects dividends received for the full quarter on the 2.2 million Partnership Units whereas the 2008 period included only a partial payment as the Partnership Units were received during the quarter. The company recognizes dividends as income on the ex-dividend date.

The company acquired \$9.1 million preferred share obligations at a discount to their stated value and recorded a gain of \$1.2 million. Also included in investment income is a \$0.4 million gain recorded on the disposition of non-core securities which were carried at nominal value in the financial statements.

---

## Expenses

Interest expense of \$0.1 million represents carrying charges on the exchangeable debentures which were redeemed earlier in the quarter. The amortization of deferred financing costs associated with preferred shares issued by BAM Split resulted in a charge against income of \$0.4 million (2008 – \$0.4 million).

## FINANCIAL POSITION

The company's total assets decreased to \$1,049.8 million at March 31, 2009 compared with \$1,212.3 million at December 31, 2008. The decrease in total assets is the result of the delivery of the pledged 5.3 million Brookfield Class A Shares and 0.2 million Brookfield Infrastructure Partnership Units to redeem the exchangeable debentures and a decrease in the market price of Brookfield Class A Shares.

### Investment in Brookfield Asset Management Inc.

The investment in Brookfield at March 31, 2009 consisted of 55.5 million (December 31, 2008 - 60.8 million) Class A Shares, representing a 9.1% (December 31, 2008 – 9.8%) fully diluted equity interest. The quoted market value based on the bid price of this investment as at March 31, 2009 was \$17.37 per share or \$963.4 million.

On January 30, 2009, the exchangeable debentures were redeemed by the delivery of 5.3 million Class A Shares to the exchangeable debenture holders.

The company has classified the 55.5 million Brookfield Class A Shares as available-for-sale financial instruments, and accordingly recognizes changes in the market value of these shares through Other Comprehensive Income.

Brookfield is a global asset manager focused on property, power and other infrastructure assets with approximately US\$80 billion of assets under management and is inter-listed on the New York, Toronto and Euronext stock exchanges. Further information on Brookfield can be found on Brookfield's web site at [www.brookfield.com](http://www.brookfield.com).

### Investment in Brookfield Infrastructure Partners

The investment in Brookfield Infrastructure at March 31, 2009 consisted of 2.2 million (December 31, 2008 – 2.4 million) Limited Partnership Units, representing a 5.8% (December 31, 2008 – 6.3%) fully diluted equity interest, which were received through a special dividend on January 31, 2008. The quoted market value based on the bid price of this investment as at March 31, 2009 was \$16.57 per share or \$36.8 million.

On January 30, 2009, the exchangeable debentures were redeemed by the delivery of 0.2 million Partnership Units to the exchangeable debenture holders.

The company has classified the 2.2 million Partnership Units as available-for-sale financial instruments and accordingly recognizes changes in the market value of these units through Other Comprehensive Income.

Brookfield Infrastructure was established by Brookfield as its primary vehicle to own and operate certain infrastructure assets on a global basis. Units of Brookfield Infrastructure trade on the NYSE under the symbol BIP. Further information on Brookfield Infrastructure can be found on Brookfield Infrastructure's website at [www.brookfieldinfrastructure.com](http://www.brookfieldinfrastructure.com).

### Future Income Taxes

The future tax liability represents the potential tax liability based on the excess of the carrying value of net assets over the respective tax values, less available loss carry forwards. The liability decreased during the period of January 1, 2009 to March 31, 2009 primarily due to the decrease in the market value of the Brookfield Class A Shares and the recognition of non-capital losses.

## LIQUIDITY AND CAPITAL RESOURCES

The company holds cash and equivalents totalling \$49.6 million as at March 31, 2009. The company does not have any maturing debt or mandatory preferred share redemptions prior to September, 2010. The operating cash requirements for 2009 include interest and dividend payments on the \$364 million preferred shares issued by BAM Split Corp which are less than the expected regular distributions on the Brookfield securities held by the company. Accordingly, the company believes it has sufficient liquid assets, operating cash flow and financing alternatives to meet its obligations.

## Retractable Preferred Shares

Retractable preferred shares issued by BAM Split include Class A and Class AA Series I and III which are comprised of the following:

<i>\$thousands</i>		Latest Redemption Date	March 31, 2009	December 31, 2008

			\$ 361,005	\$ 369,654

<sup>1</sup> Deferred financing costs are amortized over the term of the borrowing following the effective interest method.

## Shareholders' Equity

As at March 31, 2009, shareholders' equity consisted of 79,382,710 common shares and had a book value of \$606.4 million compared to \$646.3 million at the end of 2008. The decrease is due to the decrease in the market price of the Class A Shares of Brookfield. The company repurchased 4,700 of its common shares during the three months ended March 31, 2009.

## BUSINESS ENVIRONMENT AND RISKS

The financial results of the company are impacted by the performance of the underlying investment in Brookfield and Brookfield Infrastructure Partners. A discussion of their business environment and risks is contained in the management's discussion and analysis of financial results section of their 2008 Annual Reports.

<sup>1</sup> Adjusted to reflect ten-for-one stock split.

<sup>2</sup> Redeemed January 10, 2007.

<sup>3</sup> Redeemed March 30, 2007.

A summary of the eight recently completed quarters is as follows:

(\$thousands, except per share amounts)	2009	2008				2007		
	Q1	Q4	Q3	Q2	Q1	Q4	Q3	Q2
Investment income	\$11,468	\$ 21,326	\$ 9,487	\$ 9,405	\$ 7,792	\$ 6,643	\$ 8,464	\$ 9,474
Net income	9,055	10,513	2,918	2,960	7,145	1,041	1,629	1,785
Net income for common shareholders	9,055	10,513	2,918	2,960	7,145	1,041	1,629	1,785
Net income per common share	0.11	0.13	0.04	0.04	0.09	0.01	0.03	0.01

The increase in investment income in the first quarter of 2009 and the fourth quarter of 2008 is a result of gains recorded on the repurchase of preferred share obligations. The increase over 2007 reflects an increase in Brookfield's dividend rate and a higher U.S. dollar relative to the Canadian dollar. Both Brookfield and Brookfield Infrastructure declare dividends in U.S. dollars and accordingly, the Canadian dollar equivalent received by the company fluctuates with the changes in the foreign currency exchange rate.

# Notes To The Consolidated Financial Statements

## 1. BASIS OF PRESENTATION

Reference is made to the company's Annual Report for 2008 that includes information necessary or useful to the understanding of the company's business and financial statement presentation. In particular, the company's significant accounting policies were presented as Note 2 to the Consolidated Financial Statements included in that report, and changes to these policies are described in Note 2 below. The interim financial statements are unaudited and follow the accounting policies summarized in the notes to the annual financial statements. Financial information in this Report reflects any adjustments (consisting only of normal recurring adjustments) that are, in the opinion of management, necessary for a fair statement of results for the interim periods in accordance with generally accepted accounting principles in Canada. The results reported in these consolidated financial statements should not be regarded as necessarily indicative of results that may be expected for the entire year.

## 2. CHANGE IN ACCOUNTING POLICY

### Future Accounting Policies

The AcSB confirmed in February 2008 that International Financial Reporting Standards (IFRS) will replace Canadian GAAP for publicly accountable enterprises for financial periods beginning on and after January 1, 2011. The Company is in the process of developing and implementing an IFRS conversion plan that will address changes in accounting policy, the restatement of comparative periods, organizational and internal control, the modification of existing systems and the training and awareness of staff, in addition to other related business matters. Overall responsibility for the implementation and success of the Company's conversion plan rests with the Company's senior financial management who report to and are overseen by the Company's Audit Committee.

IFRS are premised on a conceptual framework similar to Canadian GAAP, however, significant differences exist in certain matters of recognition, measurement and disclosure. The company's activities are generally limited to the ownership of investments, and because of the similarities between Canadian GAAP and IFRS, management does not believe the adoption of IFRS in this regard will result in material changes to the reported financial position and results of operations of the Company. A detailed analysis of the differences between IFRS and the Company's current accounting policies under Canadian GAAP is currently in process.
