

**2010 FIRST QUARTER  
INTERIM REPORT TO SHAREHOLDERS  
FOR THE THREE MONTHS ENDED MARCH 31, 2010**

**To The Shareholders:**

BAM Investments Corp. recorded net income of \$3.3 million (\$0.04 per common share) for the first three months of 2010 compared to \$9.1 million (\$0.11 per common share) for the first three months of 2009. The higher income in 2009 reflects \$1.6 million of one-time gains on the repurchase of preferred share obligations and the disposition of certain non-core securities and a gain on the reduction in our future tax provisions of \$3.1 million due to the redemption of the exchangeable debentures in January 2009.

**Outlook and Net Asset Value**

BAM Investments owns a direct interest in 55.5 million Brookfield Asset Management Inc. ("Brookfield") Class A Shares with a market value at March 31, 2010 of \$1,430.5 million based on quoted market values and is financed with \$367.4 million of retractable preferred shares and a common equity base with a book value of \$1,009.4 million as at March 31, 2010.

The company's objective is to provide its common shareholders with capital appreciation as opposed to income returns. Operating cash flows are dedicated principally to paying dividends on its preferred share financing obligations.

The calculated net asset value of the company's common shares as at March 31, 2010, based on the stock market price of Brookfield's Class A Shares of \$25.79, was \$12.73 per common share of BAM Investments. The company holds approximately 7 Brookfield Class A Shares for every 10 common shares of BAM Investments.

# Management's Discussion and Analysis

## OVERVIEW

BAM Investments Corp., (the "company") is a leveraged investment company whose principal investment is a direct and indirect ownership interest in 55.5 million Class A Limited Voting Shares ("Class A Shares") of Brookfield Asset Management Inc. ("Brookfield").

The company's objective is to provide its common shareholders with capital appreciation as opposed to income returns. Investment income, which consists principally of dividends from its investment in Brookfield Class A Shares, is dedicated to paying dividends on its financing obligations.

The company's investment in Brookfield is owned directly and through BAM Split Corp. ("BAM Split"), a public subsidiary in which BAM Investments owns 100% of the common equity. BAM Split has issued publicly listed retractable preferred shares of which \$367.4 million were outstanding at March 31, 2010.

Additional information on the company's and BAM Split, including the company's annual information form, is available on SEDAR's web site at [www.sedar.com](http://www.sedar.com).

## RESULTS OF OPERATIONS

### Overview

Net income was \$3.3 million for the three months ended March 31, 2010, compared to \$9.1 million in the comparable period in 2009. The decrease in net income relates to a decrease in investment income and a \$3.1 million tax recovery in the prior year. Net income per common share was \$0.04 for the three month period, compared with \$0.11 for the same period in 2009.

### Investment Income

Investment income, which includes dividends, interest and other income is composed of the following:

<i>For the three months ended March 31, (Thousands)</i>	<b>2010</b>	2009
Dividends:		
Brookfield	<b>\$ 7,681</b>	\$ 8,944
Other	<b>643</b>	741
Interest	<b>1,014</b>	95
Gain on repurchase of preferred share obligations	—	1,180
Gain on sale of investments	<b>57</b>	434
Foreign exchange revaluation	<b>(159)</b>	74
	<b>\$ 9,236</b>	\$ 11,468

The company received dividend income of \$7.7 million (2009 – \$8.9 million) from its investment in Brookfield. Other dividends of \$0.6 million (2009 – \$0.7) are from the company's investment in Brookfield Infrastructure Partners ("Brookfield Infrastructure"). Brookfield declares dividends in U.S. dollars, and as a result the Canadian dollar equivalent recorded by the company is impacted by changes in the foreign exchange rate between the U.S. dollar and Canadian dollar. The weaker U.S. dollar in the current quarter resulted in a decrease of \$1.3 million of dividend income received from Brookfield compared to the 2009 period.

The company received \$1.0 million of interest income for the three months ended March 31, 2010 on the high yield bond portfolio which was acquired in December 2009.

In the prior year the company acquired \$7.9 million of preferred share obligations at a discount to their market value and recorded a \$1.2 million gain.

Also included in the investment income is a \$0.1 million (2009 – \$0.4 million gain) on the disposition of non-core securities.

---

## Expenses

The amortization of deferred financing costs associated with preferred shares issued by BAM Split resulted in a charge against income of \$0.5 million (2009 – \$0.4 million). The increase in deferred financing fees is the result of the amortization of fees incurred on the issuance of the Class AA Preferred Shares, Series IV in July of 2009.

## FINANCIAL POSITION

The company's total assets increased to \$1,528.6 million at March 31, 2010 from \$1,391.3 million at December 31, 2009. The increase in total assets is primarily a result of an increase in the fair value of the Brookfield Class A Shares to \$25.79 at March 31, 2010 from \$23.34 per share at December 31, 2009.

## Investments

### *Investment in Brookfield Asset Management Inc.*

The investment in Brookfield at March 31, 2010 consisted of 55.5 million (December 31, 2009 – 55.5 million) Class A Shares, representing a 9.7% (December 31, 2009 – 9.7%) fully diluted equity interest. The quoted market value based on the bid price of this investment as at March 31, 2010 was \$25.79 per share or \$1,430.5 million.

The company has classified the Brookfield Shares as available-for-sale financial instruments, and accordingly recognizes changes in the market value of these shares through Other Comprehensive Income.

Brookfield is a global asset manager focused on property, power and other infrastructure assets with over \$100 billion of assets under management and is inter-listed on the New York, Toronto and NYSE Euronext stock exchanges. Further information on Brookfield can be found on Brookfield's web site at [www.brookfield.com](http://www.brookfield.com).

### *Investment in Brookfield Infrastructure Partners*

The investment in Brookfield Infrastructure at March 31, 2010 consisted of 2.2 million (December 31, 2009 – 2.2 million) Limited Partnership Units ("Partnership Units"), representing a 2.1% (December 31, 2009 – 2.1%) fully diluted equity interest. The quoted market value based on the bid price of this investment as at March 31, 2010 was \$17.82 per share or \$39.5 million.

The company has classified the Partnership Units as available-for-sale financial instruments and accordingly recognizes changes in the market value of these units through Other Comprehensive Income.

Brookfield Infrastructure was established by Brookfield as its primary vehicle to own and operate certain infrastructure assets on a global basis. Units of Brookfield Infrastructure trade on the New York Stock Exchange under the symbol BIP. Further information on Brookfield Infrastructure can be found on Brookfield Infrastructure's website at [www.brookfieldinfrastructure.com](http://www.brookfieldinfrastructure.com).

### *Other Securities*

The company holds U.S. dollar high yield corporate bonds. The quoted market value based on the last traded price of these bonds as at March 31, 2010 was \$36.2 million.

The company has classified these high yield bonds as available-for-sale financial instruments and accordingly recognizes changes in the market value of these bonds through Other Comprehensive Income.

## Future Income Taxes

The future tax liability represents the potential tax liability based on the excess of the carrying value of net assets over the respective tax values, less available loss carry forwards. The liability increased during the period of January 1, 2010 to March 31, 2010 primarily due to the increase in the market value of the Brookfield Class A Shares. The future income tax recovery in the prior year related to the redemption of the exchangeable debentures in January 2009.

## LIQUIDITY AND CAPITAL RESOURCES

The company holds cash and cash equivalents totalling \$19.8 million and other securities of \$36.2 million as at March 31, 2010. The company does not have any maturing debt or mandatory preferred share redemptions prior to July, 2014. The operating cash requirements for 2010 include dividend payments on the \$367.4 million preferred shares issued by BAM Split Corp. which are less than the expected regular distributions on the Brookfield securities held by the company. Accordingly, the company believes it has sufficient liquid assets, operating cash flow and financing alternatives to meet its obligations.

### Retractable Preferred Shares

Retractable preferred shares issued by BAM Split are comprised of the following:

<i>Thousands, except share outstanding</i>		Latest Redemption Date	March 31, 2010	December 31, 2009

<sup>1</sup> Deferred financing costs are amortized over the term of the borrowing following the effective interest method.

### Shareholders' Equity

As at March 31, 2010 shareholders' equity consisted of 79,271,510 common shares and had a book value of \$1,009.4 million compared to \$894.5 million at the end of 2009. The increase is due primarily to the increase in the market value of the Class A Shares of Brookfield from \$23.34 to \$25.79 per share. The company repurchased 28,900 of its common shares during the three months ended March 31, 2010.

## BUSINESS ENVIRONMENT AND RISKS

The financial results of the company are impacted by the performance of the underlying investment in Brookfield and Brookfield Infrastructure Partners. A discussion of their business environment and risks is contained in the management's discussion and analysis of financial results section of their 2009 Annual Report.

## INTERNATIONAL FINANCIAL REPORTING STANDARDS

The AcSB confirmed in February 2008 that International Financial Reporting Standards (“IFRS”) will replace Canadian GAAP for publicly accountable enterprises for financial periods beginning on and after January 1, 2011. The company has developed and is in the process of implementing an IFRS conversion plan that will address changes in accounting policy, the restatement of comparative periods, organizational and internal control and the modification of existing systems, in addition to other related business matters. The company expects to complete its implementation of this plan prior to the filing of its first financial statement prepared under IFRS. Overall responsibility for the implementation and success of the company’s conversion plan rests with the company’s senior financial management who report to and are overseen by the company’s Audit Committee.

### *Significant differences between IFRS and Canadian GAAP*

IFRS are premised on a conceptual framework similar to Canadian GAAP, however, significant differences exist in certain matters of recognition, measurement and disclosure. The adoption of IFRS will not change the cash flows generated by the company, however, the adoption of IFRS may result in changes to the reported financial position and results of operations of the company.

A detailed analysis of the differences between IFRS and the company’s current accounting policies under Canadian GAAP is currently in process. At this time, the company has not identified any significant differences between Canadian GAAP and IFRS.

---

*IFRS 1 First-time Adoption of International Financial Reporting Standards*

The adoption of IFRS requires the application of IFRS 1 First-time Adoption of International Financial Reporting Standards (“IFRS 1”), which provides guidance for an entity’s initial adoption of IFRS. IFRS 1 generally requires that an entity apply all standards effective at the end of its first IFRS reporting period retrospectively. However, IFRS 1 does require certain mandatory exceptions and provides limited optional exemptions in specified areas of certain standards from this general requirement. The company does not expect to elect any of the available optional exemptions on adoption of IFRS.

**REVIEW OF INTERIM FINANCIAL STATEMENTS**

The accompanying unaudited interim financial statements of the company have been prepared by and are the responsibility of the company’s management. The company’s independent auditor has not reviewed these financial statements.

# Notes To The Consolidated Financial Statements

## 1. BASIS OF PRESENTATION

Reference is made to the company's Annual Report for 2009 that includes information necessary or useful to the understanding of the company's business and financial statement presentation. In particular, the company's significant accounting policies were presented as Note 2 to the Consolidated Financial Statements included in that report. The interim financial statements are unaudited and follow the accounting policies summarized in the notes to the annual financial statements. Financial information in this Report reflects any adjustments (consisting only of normal recurring adjustments) that are, in the opinion of management, necessary for a fair statement of results for the interim periods in accordance with generally accepted accounting principles in Canada. The results reported in these consolidated financial statements should not be regarded as necessarily indicative of results that may be expected for the entire year.

## 2. CHANGES IN ACCOUNTING POLICIES

### Business Combinations, Consolidated Financial Statements and Non-controlling Interests

In January 2009, the CICA issued three new accounting standards, Section 1582, *Business Combinations*, Section 1601, *Consolidated Financial Statements* and Section 1602, *Non-controlling Interests*. Section 1582 provides clarification as to what an acquirer must measure when it obtains control of a business, the basis of valuation and the date at which the valuation should be determined. Acquisition-related costs must be accounted for as expenses in the periods they are incurred, except for costs incurred to issue debt or share capital. This new standard will be applicable for acquisitions completed on or after November 1, 2011 although adoption in 2010 is permitted to facilitate the transition to IFRS in 2011. Section 1601 establishes standards for preparing consolidated financial statements after the acquisition date and Section 1602 established standards for the accounting and presentation of non-controlling interest. These standards must be adopted concurrently with Section 1582.

## 3. INVESTMENTS

The company's investment portfolio is classified as available-for-sale securities and consists of the following:

<i>(Thousands, except shares outstanding)</i>	Number of shares
