

**2013 FIRST QUARTER
INTERIM REPORT TO SHAREHOLDERS
FOR THE PERIOD ENDED MARCH 31, 2013**

To The Shareholders:

The Company recorded net income of \$8.8 million (\$0.12 per common share) for the period ended March 31, 2013 compared to \$5.5 million (\$0.07 per common share) in the prior year period. The increase in net income was primarily the result of increased valuation gains and an increase in dividend income.

The Company's net book value increased by \$0.83 per share to \$21.51 per share at March 31, 2013, primarily as a result of changes in the market value of the Company's investment portfolio.

Outlook and Net Asset Value

BAM Investments owns 56.2 million Class A Shares of Brookfield with a market value at March 31, 2013 of \$2,086 million based on quoted market values. The Company's capitalization consists primarily of \$537 million of retractable preferred shares and common equity with a book value of \$1,596 million as at March 31, 2013.

The Company's objective is to provide its common shareholders with capital appreciation as opposed to income returns. Operating cash flows are dedicated principally to paying dividends on its preferred share financing obligations. The Company holds 7.6 Brookfield Class A Shares for every 10 common shares of BAM Investments.

Management's Discussion and Analysis

OVERVIEW

BAM Investments Corp., (the "Company") is a leveraged investment Company whose principal investment is a direct and indirect ownership interest in 56.2 million Class A Limited Voting Shares ("Class A Shares") of Brookfield Asset Management Inc. ("Brookfield").

The Company's objective is to provide its common shareholders with capital appreciation as opposed to income returns. Investment income, which consists principally of dividends from its investment in Brookfield Class A Shares, is dedicated to paying dividends on its financing obligations.

The Company's investment in Brookfield is owned directly and indirectly through BAM Split Corp. ("BAM Split"), a public subsidiary in which BAM Investments owns 100% of the common equity. BAM Split has publicly listed retractable preferred shares of which \$492.4 million were outstanding at March 31, 2013.

The Company also holds a portfolio of other securities including: a 47% interest in the New Horizons Income Fund ("New Horizons"), a publicly listed fund which invests in high yield securities ("New Horizons"); a 100% interest in Global Champions Split Corp. ("Global Champions"), which owns a diversified investment portfolio of large capitalization companies; and an investment in Brookfield Infrastructure Partners ("BIP") common equity.

Additional information on the Company and BAM Split, including the Company's annual information form, is available on SEDAR's web site at www.sedar.com.

RESULTS OF OPERATIONS

Overview

BAM Investments recorded income from operations of \$6.1 million for the period ended March 31, 2013 compared to \$2.6 million in the prior year comparable period. The increase in income from operations was driven by increases in dividend income from its Brookfield Class A Shares together with dividends and increased valuation gains on its other securities portfolio.

Net income was \$8.8 million (\$0.12 per common share) for the period ended March 31, 2013 compared to \$5.5 million (\$0.07 per common share) in the prior year period. The increase in net income was primarily the result of increased valuation gains and an increase in dividend income.

The Company's net book value increased by \$0.83 per share to \$21.51 per share at March 31, 2013, primarily as a result of changes in the market value of the Company's investment portfolio.

The following table reconciles the Company's income from operations and net income for the three months ended March 31:

<i>thousands</i>	2013	2012	Variance
Investment Income			
Dividend and interest	\$ 9,221	\$ 8,250	\$ 971

Retractable preferred share dividends	6,494	6,494	—
Income from operations ²	6,139	2,649	3,490
Adjust for other items:			
Non-cash portion of equity accounted income ¹	4,138	3,932	206
Amortization of deferred financing costs	(372)	(355)	(17)
Income tax expense	(1,138)	(681)	(457)
Net income	\$ 8,767	\$ 5,545	\$ 3,222

Notes:

1. Equity accounted income is bifurcated into the Company's proportionate share of cash distributions and non-cash changes in value to better reflect the amount of investment income generated by the investment portfolio.

2. Income from operations is a non-IFRS measure used by the Company to better reflect the operating performance during the period. The measure is defined as investment income less expenses, as shown on the Consolidated Statements of Operations, and then adjusted for cash distributions received from the Company's equity accounted investment.

Investment Income

Investment income for the three months ended March 31 consists of the following:

<i>thousands</i>	2013	2012
Dividends:		
Brookfield	\$ 7,861	\$ 7,288
Other	2,502	2,054
Interest and other investment income	2,523	128
	\$ 12,886	\$ 9,470

The Company received dividend income of \$7.9 million (2012 – \$7.3 million) from its investment in Brookfield. The increase was due to an increase in the dividend rate as well as an increase in the Canadian dollar value of the dividends, which are declared in U.S. dollars.

Interest and other investment income increased in the current period as a result of the investment income recorded on the Global Champions investment portfolio, which was acquired subsequent to the 2012 quarter.

Retractable Preferred Share Dividends

The Company paid \$6.5 million (2012 – \$6.5 million) of dividends on the retractable preferred shares during the period ended March 31, 2013.

Equity Accounted Investments

The Company recorded a \$5.4 million (2012 – \$5.1 million) of equity accounted income representing its proportionate share of the net income earned by New Horizons. This consisted of \$1.2 million (2012 – \$1.2 million) of distributions received, which we present as the cash portion of equity accounted income in the MD&A and a \$4.1 million (2012 – \$3.9 million) unrealized gain on the marking fund's investment portfolio.

Amortization of Deferred Financing Costs

The amortization of deferred financing costs associated with preferred shares issued by BAM Split and Global Champions Split Corp resulted in a charge against income of \$0.4 million (2012 – \$0.3 million). The increase in deferred financing fees is a result of the new issue of the Class A, Series I Preferred Shares, issued by Global Champions Split Corp.

Income Taxes

The Company recorded an income tax expense of \$1.1 million (2012 – expense of \$0.7 million) during the three months ended March 31, 2013. The increased expense in the current period is primarily the result of the increase in the market value of the Company's investment portfolio.

FINANCIAL POSITION

The Company's total assets were \$2,345 million at March 31, 2013 and consist primarily of its \$2,086 million investment in 56.2 million Brookfield Class A shares. The market price of a Brookfield Class A share increased from \$36.17 per share at December 31, 2012 to \$37.10 at March 31, 2013.

Investment Portfolio

Investment in Brookfield Asset Management Inc.

The Company has classified the Brookfield shares as available-for-sale financial instruments, and accordingly recognizes changes in the market value of these shares through Other Comprehensive Income.

Brookfield is a global alternative asset manager focused on real estate, infrastructure, power and private equity with over \$175 billion of assets under management and is inter-listed on the New York, Toronto and NYSE Euronext stock exchanges. Further information on Brookfield can be found on Brookfield's web site at www.brookfield.com.

Other Securities

The Company holds an investment in Brookfield Infrastructure Partners which consists of 2.2 million (December 31, 2012 – 2.2 million) Limited Partnership Units with a market value of \$85.9 million as at March 31, 2013. This investment is classified as an available-for-sale financial instrument and accordingly changes in the market value are recorded in Other Comprehensive Income.

The market value of the Company's investment in New Horizons was \$69.5 million as at March 31, 2013. The Company exercises significant influence over the fund and accounts for the fund using the equity method. As such, the Company records its proportionate share of the investee's income as equity accounted income in the consolidated statement of operations.

Also included in the other securities are the securities from the Company's investment in Global Champions Split Corp., a public subsidiary which invests in a diversified portfolio of large capitalization companies and in which the Company owns 100% of the common equity. The market value of these securities was \$61.5 million at March 31, 2013.

Deferred Taxes

The deferred tax liability represents the potential tax liability based on the excess of the carrying value of net assets over the respective tax values, less available loss carry forwards. The potential tax liability increased during the period following an increase in the market value of the Brookfield Class A Shares.

LIQUIDITY AND CAPITAL RESOURCES

The Company holds cash and equivalents totalling \$40.1 million and marketable securities of \$216.9 million as at March 31, 2013. The Company has drawn \$5.3 million on its credit facility at March 31, 2013 and these are no mandatory preferred share redemptions prior to July 2014. The operating cash requirements for 2013 include \$28.0 million of scheduled dividend payments on the \$542.3 million preferred shares issued by BAM Split and Global Champions Split Corp. which are less than the expected regular distributions on the Brookfield securities held by the Company. Accordingly, the Company believes it has sufficient liquid assets, operating cash flow and financing alternatives to meet its obligations.

Retractable Preferred Shares

Retractable preferred shares issued by BAM Split and Global Champions are comprised of the following:

<i>thousands, except shares outstanding</i>		Latest Redemption Date	Mar. 31, 2013	Dec. 31, 2012

			\$ 536,957	\$ 488,139

Notes:

¹ Deferred financing costs are amortized over the term of the borrowing following the effective interest method.

Shareholders' equity

As at March 31, 2013 shareholders' equity consisted of 74,206,510 voting and non-voting common shares and had a book value of \$1,596 million compared to \$1,535 million at the end of 2012. The increase is primarily the result of a higher market value of the Class A Shares of Brookfield, whose share price increased from \$36.17 at December 31, 2012 to \$37.10 at March 31, 2013.

BUSINESS ENVIRONMENT AND RISKS

The Company's activities expose it to a variety of financial risks, including market risk (i.e. currency risk, interest rate risk, and other price risk), credit risk and liquidity risk. The following are risk factors relating to an investment in the common shares of the Company.

Fluctuations in Value of Investments

The value of common shares may vary according to the value of the Class A Shares and other securities owned by the Company. The value of these investments may be influenced by factors not within the control of the Company, including the financial performance of Brookfield and other investees, interest rates and other financial market conditions. As a result, the net asset value of the Company may vary from time to time.

The future value of the common shares will be largely dependent on the value of the Class A Shares. A material adverse change in the business, financial conditions or results of operations of Brookfield and other investees of the Company will have a material adverse effect on the common shares of the Company. In addition, the Company may incur additional financial leverage in order to acquire, directly or indirectly, additional securities issued by Brookfield, which would increase both the financial leverage of the Company and the dependency of the future value of the common shares on the value of the Class A Shares.

Foreign Currency Exposure

The Company's investment in Brookfield and certain of its other investments are functionally United States dollar investments. Accordingly, the value of these assets may vary from time to time with fluctuations in the exchange rate between Canadian and United States dollars. In addition, these investments pay distributions and interest in United States dollars. Strengthening of the Canadian dollar relative to the United States dollar could decrease the amount of cash available to the Company.

Leverage

The Company's assets are financed in part with the retractable preferred shares issued by BAM Split and Global Champions. This results in financial leverage that will increase the sensitivity of the value of the common shares to changes in the values of the assets owned by the Company. A decrease in the value of the Company's investments may have a material adverse effect on the Company's business and financial conditions.

Liquidity

The Company's liquidity requirements are typically limited to funding interest and dividend obligations on outstanding financial obligations.

Holders of the Company's retractable preferred shares have the ability to retract the shares to the Company. The Class AA, Series I Preferred shares are retractable for cash, whereas the Company has the right to issue debentures, as opposed to cash, to settle retractions of the Class AA, Series III; Class AA, Series IV; Class AA, Series V; and Class A Series I preferred shares, respectively.

The Company maintains financial assets and credit facilities to fund liquidity requirements in the normal course, in addition to its investment in Brookfield. The Company's policy is to hold the Class A Shares and not engage in trading, however shares are available to be sold to fund retractions and redemptions of preferred shares or common shares. The Company's ability to sell a substantial portion of the Class A Shares may be limited by resale restrictions under applicable securities laws that will affect when or to whom the Class A Shares may be sold. Accordingly, if and when the Company is required to sell Class A Shares, the liquidity of such shares may be limited. This could affect the time it takes to sell the Class A Shares and the price obtained by the Company for the Class A Shares sold.

No Ownership Interest

A direct investment in common shares does not constitute a direct investment in the Class A Shares of Brookfield or other securities held by the Company. Holders of common shares do not own the Class A Shares or other securities held by the Company or have any voting rights in respect of such securities.

Contractual Obligations

The Company's contractual obligations are as follows:

<i>thousands</i>	Total	Payment Due By Period

Retractable preferred shares					
BAM Split:

Notes:

- ¹ Income from operations is a non-IFRS measure used by the Company to better reflect the operating performance during the period. The measure is defined as investment income less expenses, as shown on the Consolidated Statements of Operations, and then adjusted for cash distributions received from the Company's equity accounted investment.

Income from operations includes dividends and interest on the Company's investment portfolio and is partially offset by the Company's operating costs, which primarily consists of dividends paid on the retractable preferred shares. Income from operations fluctuates from changes in the U.S. dollar relative to the Canadian dollar on dividends earned on U.S. dollar investments. Also included in income from operations are gains and losses on the disposition of investments. The variance in net income over the last eight quarters is primarily the result of mark-to-market adjustments on certain of the Company's investments.

RELATED PARTY TRANSACTIONS

Brookfield provided management and financial services to the Company during 2013 and 2012 and recovered costs of \$10,000 to March 31, 2013 (2012 – \$17,500) in respect of those services.

At March 31, 2013 the Company had \$nil (2012 – \$29.1 million) of its cash on short-term deposit with Brookfield.

CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates are required in the determination of future cash flows and probabilities in assessing net recoverable amounts and net realizable values; tax and other provisions; and fair values for disclosure purposes. In the normal course of operations, the Company may execute agreements that provide for indemnification and guarantees to third parties in transactions such as business dispositions, business acquisitions and the sale of assets. The nature of substantially all of the indemnification undertakings precludes the possibility of making a reasonable estimate of the maximum potential amount that the Company could be required to pay to third parties as the agreements often do not specify a maximum amount and the amounts are dependent upon the outcome of future contingent events, the nature and likelihood of which cannot be determined at this time. Historically, the Company has not made any payments under such indemnification agreements and guarantees.

DISCLOSURE CONTROLS AND PROCEDURES

We maintain appropriate information systems, procedures and controls to ensure that new information disclosed externally is complete, reliable and timely. The President and the Vice President, Finance of the Company evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in "National Instrument 52-109, Certification of Disclosure in Issuers' Annual and Interim Filings") as at March 31, 2013 and have concluded that the disclosure controls and procedures are operating effectively.

INTERNAL CONTROLS OVER FINANCIAL REPORTING

We maintain appropriate internal controls over financial reporting (as defined in "National Instrument 52-109, Certification of Disclosure in Issuers' Annual and Interim Filings") and the Chief Executive Officer and the Chief Financial Officer have concluded that the internal controls have been designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS. Management has evaluated whether there were changes in our internal controls over financial reporting during the period ended March 31, 2013 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting and has determined that there have been no such changes.

REVIEW OF INTERIM FINANCIAL STATEMENTS

Forward-Looking Information

This interim report contains forward-looking information concerning the Company's business and operations. The words "objective", "expect", "potential", "believes" and other expressions of similar import, or the negative variations thereof, and similar expressions of future or conditional verbs such as "may", "should", "could", "would" or "will", are predictions of or indicate future events, trends or prospects or identify forward-looking information. Forward-looking information in this interim report includes, among others, statements with respect to the Company's objective of providing capital appreciation to its common shareholders, potential tax liability, expected future results, the Company's liquidity and its ability to finance its obligations and other statements with respect to the Company's beliefs, outlooks, plans, expectations and intentions.

Although the Company believes that the anticipated future results or achievements expressed or implied by the forward-looking information and statements are based upon reasonable assumptions and expectations, the reader should not place undue reliance on the forward-looking statements and information because they involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to differ materially from anticipated future results, performance or achievement expressed or implied by such forward-looking information and statements.

Factors that could cause actual results to differ materially from those contemplated or implied by the forward-looking information include: the behavior of financial markets, including fluctuations in interest and exchange rates, availability of equity and debt financing and other risks and factors detailed from time to time in the Company's other documents filed with the Canadian securities regulators.

We caution that the foregoing list of important factors that may affect future results is not exhaustive. When relying on our forward-looking information to make decisions with respect to the Company, investors and others should carefully consider the foregoing factors and other uncertainties and potential events. Except as may be required by law, the Company undertakes no obligation to publicly update or revise any forward-looking information or statements, whether written or oral, that may be as a result of new information, future events or otherwise. Reference should be made to the Company's most recent Annual Information Form for a description of the major risk factors.

Cautionary Statement Regarding Use of Non-IFRS Accounting Measures

This interim report makes reference to net income for common shareholders and net book value per common share, and provides a full reconciliation between these measures and net income and total assets, respectively, which the Company considers to be the most directly comparable measures calculated in accordance with IFRS.

Notes To The Consolidated Financial Statements

1. BUSINESS OPERATIONS

BAM Investments Corp. (the “Company”) is an investment holding Company incorporated under the laws of the province of Ontario which owns a leveraged investment in Brookfield Asset Management Inc. (“Brookfield”). Brookfield provides management and administration services to the Company. The consolidated financial statements include the accounts of the Company’s wholly-owned subsidiary, BAM Split Corp. (“BAM Split”). The Company was formed by the articles of incorporation under the Business Corporations Act (Ontario) and is registered in Ontario, Canada. The registered office of the Company is Brookfield Place, 181 Bay Street, Suite 300, Toronto, Ontario, M5J 2T3.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Statement of compliance

The condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standards (“IAS”) 34, Interim Financial Reporting on a basis consistent with the accounting policies disclosed in the audited consolidated financial statements for the fiscal year ended December 31, 2012.

The interim financial statements should be read in conjunction with the most recently issued Annual Report of the Company which includes information necessary or useful to understanding the Company’s businesses and financial statement presentation. In particular, the Company’s significant accounting policies were presented as Note 2 to the Consolidated Financial Statements for the fiscal year ended December 31, 2012 included in that report, and have been consistently applied in the preparation of these interim financial statements.

The interim financial statements are unaudited. The results reported in these interim consolidated financial statements should not be regarded as necessarily indicative of results that may be expected for the entire year.

These financial statements were authorized for issuance by the Board of Directors of the Company on May 23, 2013.

(b) Adoption of accounting standards:

Consolidated Financial Statements, Joint Ventures and Disclosures

In May 2011, the IASB issued three standards: IFRS 10, Consolidated Financial Statements (“IFRS 10”), IFRS 12, Disclosure of Interests in Other Entities (“IFRS 12”), and amended two standards: IAS 27, Separate Financial Statements (“IAS 27”), and IAS 28, Investments in Associates and Joint Ventures (“IAS 28”). Each of the new and amended standards became effective on January 1, 2013.

IFRS 10 replaces IAS 27 and SIC-12, Consolidation-Special Purpose Entities (“SIC-12”). The consolidation requirements previously included in IAS 27 have been included in IFRS 10, whereas the amended IAS 27 sets standards to be applied in accounting for investments in subsidiaries, joint ventures, and associates when an entity elects, or is required by local regulations, to present separate (non-consolidated) financial statements. There was not any impact of IFRS 10 and the amendments to IAS 27 on the Company’s consolidated financial statements.

IAS 28 prescribes the accounting for investments in associates and sets out the requirements for the application of the equity method when accounting for investments in associates and joint ventures. There was not any impact of the amendments to IAS 28 on the Company’s consolidated financial statements.

IFRS 12 integrates the disclosure requirements on interests in other entities and requires a parent Company to disclose information about significant judgements and assumptions it has made in determining whether it has control, joint control, or significant influence over another entity and the type of joint arrangement when the arrangement has been structured through a separate vehicle. An entity should also provide these disclosures when changes in facts and circumstances affect the entity’s conclusion during the reporting period. Entities are permitted to incorporate the disclosure requirements in IFRS 12 into their financial statements without early adopting IFRS 12. There was not any impact of IFRS 12 on the Company’s consolidated financial statements.

Financial Instruments

IFRS 9, Financial Instruments (“IFRS 9”) was issued by the IASB on November 12, 2009 and will replace IAS 39, Financial Instruments: Recognition and Measurement (“IAS 39”). IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. IFRS 9 is effective for annual

periods beginning on or after January 1, 2015. The Company has not yet determined the impact of IFRS 9 on its financial statements.

Fair Value Measurements

In May 2011, the IASB issued IFRS 13, Fair Value Measurements (“IFRS 13”). IFRS 13 establishes a single source of fair value measurement guidance and sets out fair value measurement disclosure requirements. The standard requires that information be provided in the financial statements that enable the user to assess the methods and inputs used to develop fair value measurements, and for reoccurring fair value measurements that use significant unobservable inputs, the effect of the measurements on profit or loss or other comprehensive income. IFRS 13 became effective on January 1, 2013. The application of IFRS 13 has not materially impacted the manner in which the Company measures its financial and non-financial assets and liabilities.

Presentation of Items of Other Comprehensive Income

In June 2011, the IASB made amendments to IAS 1, Presentation of Financial Statements: Presentation of Items of Other Comprehensive Income (“IAS 1”). The amendments require that items of other comprehensive income are grouped into two categories: items that will not be reclassified subsequently to profit or loss; and items that will be reclassified subsequently to profit or loss when specific conditions are met. Income tax on items of other comprehensive income is required to be allocated on the same basis. The amendments to IAS 1 are effective for annual periods beginning on or after July 1, 2012. The Company does not expect the amendments to IAS 1 to have a material impact on the financial statements.

3. INVESTMENT PORTFOLIO

The Company’s investment portfolio consists of the following:

	Number of Shares		Mar. 31, 2013	Dec. 31, 2012
